About HDSA

The Huntington's Disease Society of America is the premier nonprofit organization dedicated to improving the lives of everyone affected by Huntington's disease. From community services and education to advocacy and research, HDSA is the world's leader in providing help for today, hope for tomorrow for people with Huntington's disease and their families. In the battle against Huntington's disease no one fights alone. At HDSA, family is everything.

What is Huntington's Disease?

Huntington's disease is a fatal genetic disorder that causes the progressive breakdown of nerve cells in the brain. It deteriorates a person's physical and mental abilities usually during their prime working years and has no cure. Every child of a parent with HD has a 50/50 chance of carrying the faulty gene that causes Huntington's disease. Today, there are 30,000 symptomatic Americans and more than 200,000 at-risk of inheriting the disease. The symptoms of HD are described as having ALS, Parkinson's and Alzheimer's diseases – simultaneously.

HDSA History

HDSA was founded in 1968 by Marjorie Guthrie, the wife of legendary folk singer Woody Guthrie. Woody died from HD complications in 1967 when he was only 55 years old, but the Guthrie family legacy lives on at HDSA to this day.

HDSA Chapters & Affiliates

HDSA currently has 54 volunteer-led Chapters and Affiliates across the United States with its headquarters in New York City. Chapters and Affiliates support HDSA's mission by bringing community-based services, awareness and grassroots fundraising to strengthen resources to families affected by HD.

Centers of Excellence

HDSA currently has 43 Centers of Excellence across the United States. The Centers of Excellence provide the team approach to Huntington's disease care and research. There you will find HD-experienced neurologists, psychiatrists, speech and swallowing specialists, occupational therapists, physical therapists, genetic counselors and other professionals to help you plan the best care program.

Social Workers & Support Groups

HDSA currently has 54 Social Workers & more than 160 support groups across the United States working to provide vital support to HD families. HDSA Social Workers assist families with navigating HD by providing information, referrals and helping to start and maintain support groups.

Volunteer. Educate. Advocate. Donate.
